INTRODUCTION

AI Bots

Manipulating engagement
and spreading
misinformation.

Website + Extension

Detect and block interactions
with AI profiles.

Detection and Blocking

Identifying AI-driven
accounts for transparency.

VIDEO DEMO

NEAR FUTURE IMPLEMENTATIONS

Thank you!

<https://botblocker-pi.github.io/Documentation/>

The image displays two screenshots of the BotSentinel Documentation website. The top screenshot shows the homepage with a blue header featuring the text "Your Voice Matters. Don't Let AI Drown It Out" and a subtext about taking control of online spaces. It includes a cartoon robot icon on a laptop screen. The bottom screenshot shows a "Milestones" page with a sidebar listing four phases: MS1 - Inception Phase, MS2 - Elaboration Phase, MS3 - Construction, and MS4 - Transition. Each phase is represented by a card with a small icon and a link to its details. The main content area below the sidebar contains three cards: "Trust the Internet Again" (with a shield icon), "Community-Based Ratings" (with a people icon), and "Flexible Blacklist Control" (with a list icon). A small illustration at the bottom shows a person interacting with a robot at a desk. At the very bottom right, there is a "Project Description »" link and a "Next" button.
